Linwood Iris Gardens

BLANCHE COVERT

1351 South Hydraulic Avenue
WICHITA, KANSAS

INTRODUCTORY

HEALTHY PLANTS. All plants have been thoroughly inspected, and are sold by authorized permit from the ENTOMOLOGICAL COMMISSION of the State of Kansas.

TIME OF DELIVERY. Will begin filling orders June 20, or as soon thereafter as weather conditions permit. Years of experience and observation in growing iris in this locality, where we have a very hot August, a month that causes more discouragement to plant enthusiasts than all others, has given positive proof that rhizomes set the latter part of June or as early in July as possible give best results. Knowing the exact happenings after setting the rhizome explains this theory. In about four days tiny roots shoot out from the body of the rhizome, also from the old roots remaining on the rhizome at the time of planting. These new roots continue to grow under favorable conditions, which usually last until our hot, dry season in August. The early growth made materially strengthens the new plant for this trying period. During the latter part of the season more root growth is made, also from the sides of the rhizome new shoots appear and the entire growth continues until freezing weather, usually about first part of November. With ordinary garden care iris handled in this manner are almost sure to give one or more fine bloom stalks the following season. Delivery will be made to suit the customers convenience as nearly as possible and, orders will be filled any time until freezing weather.

FREE DELIVERY on orders of \$1.00 or over.

STOCK TRUE TO NAME. All varieties are guaranteed true to name. No substitutions made unless a second choice is made. Continued success in the iris business depends on satisfied customers, and this is my constant aim. Each order receives the best rhizomes possible. All orders are filled by plants grown by me under the most exacting methods. Mistakes are reduced to a minimum, and should one occur will cheerfully and promptly adjust same. In case of mistake, purchase price will be refunded, or if customer prefers, will be adjusted by supplying new stock of other varieties. No further adjustment will be made. No adjustment of any nature will be made after the season following the purchase of plants.

ZINC LABELS on No. 10 galvanized wire stake complete, 3 cents each. These labels are permanent and by far the most economical type of label I have ever used.

CUPRO-JABONITE. Practically the only disease materially affecting iris is root rot. I have a supply of CUPRO-JABONITE in one pound cans equipped with convenient sifter top. No doubt this preparation is the best ever used for root rot. Just sift on a light sprinkling and rot dries leaving the plant in a fine healthy condition to continue growth. Per can, post paid \$1.00

**MEMBER OF
THE AMERICAN IRIS SOCIETY**

New Faces in the Iris Family

Truly with a feeling of pride we wish to announce the addition of quite a number of the very latest novelties. These are being tested and are to bloom in this particular climate for the first time this, the spring of 1933. The first group was listed during the season of 1932 in the price range from \$10.00 to \$25.00 per single rhizome.

Heading this list will be a group of three French introductions DEPUTE NOMBLOT, VERT GALANT and MINISTRE FERNAND DAVID each having received their share of favorable comment. HELOIS another fine French iris ranks high among the new yellows having just about everything desired. BLACKAMoor, DOUGLAS, WAMBLISKA and PINK SATIN from Mr. Jacob Sass. Certainly Mr. Sass with the very able assistance of his son Henry, is leading the field at the present time, in new productions. From Mr. Andrews comes GILEAD, one of those amber blends that defy accurate description. This is claimed by critics to be his best to date. BLUE VELVET, the world's outstanding blue iris, from Dr. Loomis' garden. Also his fine blend SACHEM. Three real gems introduced by Mr. Connell headed with DAUNTLESS, followed by NEPENTHE and SELENE. Hard indeed to make a choice from these. Two more will be mentioned in this group. MORNING GLORY from Kirkland and WINNESHEIK from Egelberg, both very fine, having wonderful color with plenty of height.

Just slightly under the above group in price range will be mentioned a list of very fine varieties covering a wide range of color, also new in our garden. INDIAN CHIEF, OKOBOJI, ROSE OF CUBA, NUMA ROUMESTAN, MONTEREY AND IRMA POLLOCK, carrying all the red variations found in iris. SIR MICHAEL, a blue of super quality. PLUIE D'OR probably the tallest and best branched yellow to date. Four more fine iris deserve special mention. ROSE MARIE, DON JUAN, KING MIDAS and WACONDA each having their individual fine points and carrying their color well in the garden. Fitting to be end man to such a group will be placed the giant COLOSSUS. No other iris approaches this one in size. Introduced by Mr. H. P. Sass and is truly a novelty.

Bearded Iris

3 FOR 2

(Three of the same variety for the price of Two)

‡ This prefix appearing before a variety indicates one which grow rhizomes below the average in size. However, most of these little fellows are quite rugged and grow as readily as the larger varieties. Among them will be found some of the most desirable novelties, many with very high ratings.

Aareshorst—Rich even tone of red, subdued with an infusion of bronze, giving the falls a very distinctive metallic castEach .40c

Acheron—Deep violet-purple. A tall, striking variety with medium sized flowers.....Each 25c

Afterglow—See bargain list.

Alabaster—Pure white about 34 in. Falls flaring gracefully. Extra good substance.....Each .35c

Alazar—See bargain list.

‡**Allies**—One of most beautiful colors found in the iris. Very rich bronzed red. Low growing but always admired. Sure to please.....Each 40c

Allure—Very delicate blend with pink predominating. A new iris sure to become a general favorite among the lighter colors.....Each 75c

Ambassadeur—This fine iris has indeed stood the test of time, and today is one of the finest dark irises. Velvety bronze-purple. Falls nearly black. One of the latest.....Each 20c

Amas—See bargain list.

‡**Amber**—Rich amber yellow. (Award of merit, R. H. S. 1927)Each 20c

Amerind—Attractive dull golden blend. Finest of habits, the stalks being tall with several flowers open at a time. A general favorite in the garden. Robust Each 40c

Ambigu—See bargain list.

Angelo—Medium toned blue bicolor. Fine. Only a few rhizomes offeredEach .35c

Ann Page—Enormous light blue flowers on tall well branched stems.....Each .20c

Ann Leslie—A color spot in the garden. F. carmine S .white. Medium height.....Each .20c

Antares—Almost a white, with S. and F. speckled and overlaid blue. A novelty sure to attract attention. Not similar to any other iris listed. Fine, large fragrant flowers.....Each .35c

‡**Apache**—Coppery brick red that is really red. Not a large iris, but a very desirable one. Makes a fine, rich clump. Extra hardy.....Each .35c

Aphrodite—Smooth even tone of bright pink. A pink for the back and one to be depended on to bloom every year. By all means raise and enjoy this fine iris. Stands up in fine clumps 44 in. with a long blooming season.....Each 25c

Archeveque—Rich raisin purple. 24 in.....Each 20c

Aristocrat—General garden appearance, a tall dark pink. Good habits.....Each 20c

Arlette—White with a very faint cream tint. A finished, stylish flower. Medium.....Each 35c

Arnold—Beautiful brown toned bicolor. When planted in mass gives very fine effect....Each 20c

- ‡**Argynnis**—Rich yellow S. and chestnut F. Graceful, slender 40 inch stalks.....Each 25c
- Asia**—Blend of silvery lavender and yellow. One of the most stylish and probably the sweetest scented iris grown. Tall.Each 25c
- Autocrat**—Dark blue bicolor. An all purpose, good garden variety. Color carries well, and when planted in clumps makes a very attractive spot. Medium height.Each 20c
- Aurette**—Very deep, rich purple. Sure to become very popular. Rather earlyEach 35c
- Avatar**—S. buff; F. pansy-violet. Large stately flowers with yellow center, which give an effect as though it were lighted from within. Very desirable. 36 inches.Each 25c
- Balboa**—Tall red violet bicolor on extra strong stems. One of the parent plants of BLUE VELVETEach 20c
- Baldwin**—Manganese violet. Very peculiar shade and one of the largest flowered.....Each 75c
- Ballerine**—Light blue. Huge flowers of finest form on tall, strong stems. Regardless of price there is nothing finer in this color class.....Each 25c
- Bealder**—Yellow bicolor with attractively blended falls. One hard to describe. Hardy.Each 25c
- ‡**Beau Ideal**—White with solid half inch border of Chinese violet on both S. and F. 30 in....Each 25c
- Bertrand**—Large blue bicolor of DOMINION parentage. Falls velvety.....Each 25c
- Black Prince**—See bargain list
- Bluet**—Pure blue flowers of medium size borne in such profusion that a clump defies a description that will anywhere near do it justice. Its rampant habits qualifies it for any position in the garden. 28 inches.Each 20c
- Bruno**—Velvety, bronzy purple. Truly one of the outstanding irises. Ample stock permits this unheard of price. Be sure and include one or more in your order.....Each 25c
- Buto**—S. royal purple; F. velvety blackish violet. Extra large well formed flowers. 30 in....Each 50c
- B. Y. Morrison**—S. pale lavender; F. velvety raisin purple widely bordered lavender.....Each 20c
- Candlelight**—Rosy mauve with soft suffusion of gold. Worlds highest rated iris prior to 1932. Tall and extremely late.....Each 25c
- Canopus**—Rich velvety purple bicolor. F. prune purple. DOMINION seedling.....Each 35c
- Caporal**—Deep red toned violet self.....Each 20c
- Caprice**—See bargain list.
- Cardinal**—S. lavender, shot rose; F. velvety dark reddish purple. A distinguished iris of perfect form and poise. Recommended.Each 50c
- Caterina**—See bargain list.
- Cecil Minturn**—See bargain list.
- Chalice**—The most popular yellow ever grown in my garden. Pure medium tone with best of habits. The one yellow for general garden use. Ea. 25c
- Challenger**—Intense, velvety blackish violet with fine broad flaring falls. Early. A grand iris having quality, size and substance of the mid-season varieties.Each 50c
- Chasseur**—An attractive combination of yellow with red veinings at throatEach 25c

- Churchmouse**—Hay's brown self. A new iris whose popularity is assured. 34 in.Each 40c
- Cluny**—See bargain list.
- Colonel Lindberg**—Brilliant blue bicolor. Among the very best in this class. 40 in.....Each 50c
- Conquistador**—Largest flowers of deep mauve. Stems 55 in. tall in garden, with many flowers open at a time.....Each. 25c
- Coppersmith**—Rich coppery-red. Many large flowers open at a time. This fine tall iris will stand comparison with any iris grown.....Each 50c
- Coronado**—S. lavender; F. red purple with pale lavender edging. 36 inchesEach 25c
- Cretonne**—See bargain list.
- Crimson Glow**—Large flowers of light red purple. Only a few rhizomes offered for sale.Each 25c
- Crimson King**—After thorough comparison believe this variety the best of the early red-purples. Large flowers slightly ruffled.....Each 20c
- Crusader**—Large flowers of clear violet blue. Makes fine blue effect in the garden.....Each 20c
- Dalila**—Very catchy. S. creamy yellow; F. raspberry. Extremely profuse. 25 inches.....Each 20c
- Damozel**—White, S. and F. distinctly edged blue. One of the finest plicatas. 38 in.....Each 25c
- Dauntless**—Conceded to be one of the very finest recent introductions. Brilliant velvety red. Awarded the Dykes Medal in 1929.....Each \$4.00
- Dawn**—See bargain list.
- Dejah**—Heavy mauve. A fine iris where a tall rugged, very dependable variety is needed...Ea. 20c
- Dejazet**—See bargain list.
- Dolly Madison**—Pinkish mauve. Attractive bright orange beard. Is classed one of the worlds best ten. Strongly recommended.....Each 65c
- Dominion**—Rich indigo purple, very velvety. This is parent of many of the finest irises.....Each 75c
- Don Quixote**—Monster flowers of pale buff, blended soft lavender. Very fine.....Each 35c
- Dorothea**—See bargain list.
- Douglas**—Rich blue purple. Introduced by J. Sass in 1932. Tall and well branched.....Each \$5.00
- Dr. Chas. H. Mayo**—Large medium toned pink. Extremely fragrant. Only a very few rhizomes offered. Each 50c
- Dream**—See bargain list
- Duke of Bedford**—Rich deep violet purple. Broad flaring, velvety falls. Vigorous.....Each 35c
- Duke of York**—Large, nicely shaped flowers of light bluish lavender. 46 in.....Each 25c
- Edgewood**—Deep pink bicolor. A desirable garden iris, because of very fine habits.....Each 75c
- Eldorado**—See bargain list.
- Endymion**—Tall, large flowered, buff blend. Outstanding in its color class.....Each 40c
- Esplendido**—Unusually large, red toned bicolor. Color and size combined with the fine height make this a very fine variety where lots of color is needed. Hardy everywhere.....Each 25c
- Evadne**—Smooth, bronzy rose-red self with heavy orange beard. Fragrant. 40 inches.....Each 25c
- Eventide**—Hays lilac self. Large flowers of a distinctly new color in iris. One of the general favorites in the garden. 34 in.....Each 25c

Fairy—See bargain list.

Farandole—S. French grey with strong suffusion of rose in the center; F. purplish rose with broad margin to match the standard. A new iris of very high quality. 36 inches.....Each \$1.00

Fedora—See bargain list.

Folkwang—S. white, faintly flushed rose; F. clar-et red, edged cream. A very handsome iris re-cently introduced from Germany.....Each 35c

Fragonard—Very beautiful rose-pink. The falls shade deeper tone. An iris commanding instant attention as one glances over the garden. Ea. \$1.00

Friar Tuck—Blackish purple veined and spotted maroon on the haft. 34 in.....Each 25c

Frieda Mohr—One of the finest pink irises ever introduced. Huge flowers with very attractive flaring falls, on tall, well branched stems. Lo-cust blossom fragrance.....Each 50c

Fro—See bargain list.

Gaviota—See bargain list.

Geo. J. Tribolet—Almost black with rich velvety falls. Freely recommended. 40 inches.....Each 25c

Geo. Yeld—Very large flowers. S. apricot yellow shaded rose; F. brilliant wine red edged buff. Several flowers at a time. 36 inches.....Each 25c

Georgia—Soft Cattleya rose. Truly one of the very finest landscape varieties.....Each 20c

Germaine Perthuis—Exceptionally fine shaped flowers of deep purple, falls being broad and velvety. This variety ranks with the highest class modern hybrids of today.....Each 50c

Gertrude—See bargain list.

Gloriae—Good tall light blue.....Each 50c

Glowing Embers—S. tan; F. velvety rich crimson. One with the finest of habits. The fine tall stems stand well above the foliage.....Each 35c

Golden Glory—A tall mid-season yellow. The best iris introduced by Prof. Jackson Hardy, and when well established is very satisfactory...Ea. 35c

Gold Imperial—Medium sized flowers of a very beautiful chrome yellow. Rapid increaser...Ea. 20c

Grace Sturtevant—One of the richest dark, vel-vety irises. Words cannot do justice to such a beautiful creation. The partly open buds are as beautiful and rich as the open flowers. Hardy in the coldest climates. 36 inches.....Each \$3.50

Grapta—See bargain list

Gretchen—S. white with faint flush of pink; F, a bright deep rose. Only a few rhizomes of-fered. Each 50c

Grevin—A good late red variety, large flowers on medium stemsEach 25c

Grisette—S. Walnut brown; F. Manganese violet Effect a pink blended with tan. 34 inches...Each. 50c

Halo—See bargain list.

Harpalion—See bargain list.

Harriet Presby—Fine tall pink late enough that it fills a real need in the garden. A favorite with everyone. Fragrant..... Each 25c

Havamal—Cream standards; F. violet-blue edged cream. Flowers much larger than usually found in this color class. Extra rampant.....Each 25c

Her Majesty—See bargain list.

Hiawatha—See bargain list.

- Hussard**—Dull blue. An unusually smooth satiny finish to the nicely shaped flowers make this iris greatly admired. 34 inches.....Each 25c
- Imperator**—Rosy red self with a touch of bronze at the throat. Good medium flowers.....Each 20c
- Inca**—See bargain list.
- Indian Chief**—The deep rich velvety red seen in the flowers is suggested by the very apt name given this variety. Tall, strong and vigorous. Am glad to offer this fine iris at this modest price. Each \$2.00
- Ingeborg**—See bargain list.
- Iris King**—See bargain list.
- Isoline**—General appearance pink with a strong suffusion of gold. An old standby which in clump is very beautiful. 34 inches.....Each 20c
- Jacinto**—Large flowers of soft pinkish lavender. Tinting very delicate. 38 inches.....Each 25c
- Jack Rose**—Bright red violet self. Flowers on tall strong stems in great abundance. This is to become a very popular iris for mass planting. Rapid increaser.....Each 35c
- Jacqueline Guillot**—Mammoth flowers of lustrous soft, light lavender. 36 inches.....Each 25c
- †**Joshua**—Heavily ruffled, deep rich purple. A heavy white beard produces a very odd and attractive appearance. Real early.....Each 35c
- ‡**Jubilee**—S. light buff fading to peach; F. creamy white, the whole flower peppered with dull purple dots. One of the most ruffled, and attractive among the newer novelties.....Each 25c
- Julia Marlowe**—Tall rich, pinkish red iris produced by the noted hybridizer, Shull.Each 25c
- Juniata**—See bargain list.
- Kalos**—White, faintly flushed and peppered rose. Dainty ruffled flowers. 22 inches.....Each 25c
- Kansas**—If I had to make a first choice among the pink irises, Kansas would be first choice. The mammoth flowers of fine form and substance are held 44 inches on extra strong, well branched stems.Each 75c
- Kastor**—See bargain list.
- King Juba**—S. old gold; F. rich velvety carmine. An iris of outstanding quality, probably holding first honors in this class. 34 inches..Each \$4.00
- King Karl**—The best of the Sass plicatas. Beautifully ruffled flowers blended cream and apricot lightly sprinkled with purple dots. Very rugged grower, about 26 inches.....Each 35c
- King Tut**—Rich reddish brown. Dominating and striking. One of the high spots in an iris garden. 30 inches.....Each 75c
- Kochii**—See bargain list.
- ‡**Labor**—Deep dull red with a decided sheen of coppery blue. One remembers this iris as one of the most stylish of all, having an unusual amount of individuality.....Each 50c
- Lady Byng**—See bargain list.
- Lady Foster**—Large fragrant flowers of a beautiful light lavender blue. 36 inches.....Each 25c
- L'Aiglon**—Tall, rich bronzy-red bicolor. A robust iris of unquestionable quality.....Each 50c

- Le Corree**—Brilliant deep red-brown, with outstanding bright orange beard. While dark, this iris carries enough color to be desirable in the garden, and is a very fine addition to this color class. Sweetly scented.....Each 75c
- Lent A. Williamson**—Purple bicolor with a distinct suffusion of brown. At one time carried the highest rating of any iris. Still worthy of a place in any garden.....Each 20c
- ‡Lenzschnee**—Large flowered white with extra broad falls..... Each 50c
- Leonidas**—See bargain list.
- Leverrier**—S. Rosy mauve; F. bright pansy violet. Tall variety carrying lots of color.Each 25c
- Lohengrin**—See bargain list.
- ‡Lona**—One of the most beautiful color combinations found in the iris. The base color is a soft rose, which in clump carries very much of the pink. Heavily ruffled. 25 inches.....Each 25c
- Lord Lambourne**—Large flowers on tall strong stems. S. rosy fawn; F. rich madder crimson. Early with a longblooming season.....Each 25c
- Lord of June**—Light blue bicolor. Falls of the extra large flowers droop gracefully giving this variety an individuality all its own. A fine iris well deserving of its popularity.....Each 25c
- Loreley**—See bargain list.
- Los Angeles**—Large white, S. faintly edged blue. F. beautifully reticulated brown at the base. Tall widely branched.....Each 75c
- ‡Louis Bel**—Dark pansy violet. Positively the darkest iris in the garden. Always a source of much admiration. 30 inches.....Each 50c
- Loute**—See bargain list.
- ‡Magnifica**—Huge red violet bicolor. Commonly the flowers will measure over seven inches, with several open at a time. 36 inches....Each 25c
- Majestic**—S. blue, flushed bronze; F. brilliant raisin purple. A Dominion seedling with beautiful broad, flaring, velvety falls.....Each 25c
- Mamie**—S. and F. clear white, frilled and penciled light violet. Very dainty. 26 inches.....Each 20c
- Mariposa**—See bargain list.
- Mary Barnett**—A beautiful clear pale blue. To the discriminating this iris is conceded to be one of the best light colored ones ever produced Fully 36 inches and rugged.....Each 50c
- Mary Garden**—See bargain list.
- Mary Gibson**—Tall bronzy rose blended very beautifully. A real improvement over our old favorite, Quaker Lady. Recommended.....Each 25c
- Mary Williamson**—A rare color combination. S. white and F. purple with wide border of white Very fine as a cut flower. 30 inches.....Each 25c
- Medrano**—Smoky, claret red. An iris of proven merit, worthy to be seen in any modern collection. Very late.....Each 25c
- Midgard**—Pink and yellow blend. The blending of the colors seem to have reached the last degree of perfection. Many of the fine stylish flowers open at a time on even stems. 30 inches. Stands hot weather extra well.....Each 50c
- Midwest**—Ruffled flowers, flushed and dotted deep rose on a white ground. This catchy little novelty is a general favorite. 24 inches.Each 25c

- Mildred Presby**—S. soft ivory white; F. bright ruby. Produces a very striking garden effect.
27 inchesEach 25c
- Mlle. Schwartz**—Tall, large pale mauve self of perfect form.Each 20c
- Mme Abel Chatenay**—S. rose ash; F. old rose. Ea. 25c
- Mme. Cecile Bouscant**—Clear orchid pink. Makes a fine specimen variety.....Each 50c
- Mme. Chereau**—See bargain list.
- Mme Cheri**—Very rugged, tall beautiful pink warmed by a soft yellow undertone.....Each 25c
- Mme. Chobaut**—See bargain list.
- Mme. Durrand**—Pale buff and creamy lavender marked old gold. Large flowers. Has been blooming well in this climate.....Each 35c
- Mme. Henri Cayeux**—Rich violet brown very near black in certain lights. 34 inches.....Each 35c
- Moa**—Large flowers of deep purple-violet..Each 65c
- Moliere**—See bargain list.
- Monsignor**—See bargain list.
- Monterey**—Dark bronzed red bicolor. Tall, with nicely shaped flowers.....Each \$1.00
- Montezuma**—See bargain list.
- Morning Glory**—For brilliance, this tall red-violet has no superior. Sure to be one of the most popular varieties ever introduced. Very special low priceEach \$2.50
- Morning Splendor**—Huge flowers producing a deep red effect. Among the very best regardless of price. The iris that made Shull famous as a hybridizer. 34 inches.....Each 25c
- Mother of Pearl**—See bargain list.
- Mt. Penn**—See bargain list.
- Mrs. A. S. Hoyt**—S. light purple; F. white, striped petunia violet, with a distinct heart shaped white spot in the center. 26 inches.....Each 25c
- Mrs. Hetty Matson**—Bronzed purple bicolor. Tall and unusually free flowering.....Each 20c
- †Mrs. Marion Cran**—Tall bright rose-pink.....Each 35c
- Nancy Orne**—Lovely blend of fawn and pink. Makes an even, compact clump of a very pretty shade of pink when used in mass plantings. Each 25c
- Nebraska**—Ruffled flowers of apricot yellow, the falls striped a rich brown. Late.....Each 50c
- Nepenthe**—Soft blending of mauve blue with a distinct suffusion of light yellow. A new novelty creating much favorable comment. Each \$1.50
- Neptune**—See bargain list.
- Nine Wells**—See bargain list.
- Numa Roumestan**—An intense, rich red self. A new tall variety of outstanding merit....Each \$2.50
- Oberon**—An iris sure to please. Large flowers of iridescent pinkish lavender. 36 inches....Each 25c
- Odorolac**—One of the best tall blue and mauve blends. Beautiful flaring falls. On exhibition was given a rating of 90. Rugged.....Each.35c
- Okoboji**—The darkest red growing in the garden. Released by the introducer in 1932.Each \$1.00
- Olive Murrell**—Deep rose blended with bronze, producing a soft, warm pink. Tall.....Each 35c
- Omaha**—While this iris is spoken of as red, I prefer to class it as very rich, bright pink. Very beautiful indeed. 28 inches.....Each 65c

- Onneris**—See bargain list
- Opera**—A very popular rich red. Grows about 22 inches with many flowers open at a time...Each 20c
- Ophelia**—A blend of yellow, rose and old gold almost defying description. This pleasing blend of colors gives a very restful feeling when viewed with the brighter colors.....Each 50c
- Orion**—Velvety, blackish bicolor. Extra large on strong 36 inch stems.....Each 35c
- Palemon**—Very large flowers of light, soft lavender with faint suffusion of fawn.....Each 25c
- Pallida Dalmatica**—See bargain list.
- Parc De Neuilly**—See bargain list.
- Parisiana**—The ground color is light with many heavy purple dots over the flower. Has strong grape fragrance. About 30 inches.....Each 20c
- Pauline**—See bargain list.
- Peau Rouge**—Rich dark red growing about 28 inches. One of darkest, medium sized reds. Each 35c
- ‡Peerless**—Gigantic flowers of a glowing mahogany red. Only experienced growers should try this variety as it establishes very slowly. Rhizomes always tiny.Each 75c
- Perfection**—See bargain list.
- ‡Phyllis Bliss**—Beautiful shade of rosy-lilac on strong, medium height stems.....Each 25c
- Pioneer**—Velvety dark red-purple. One of the outstanding values of the garden at the price asked Fine heavy foliage. 36 inches.....Each 25c
- Pluie D'or**—Outstanding rich yellow, on tall, well branched stemsEach \$1.50
- Prairie Gold**—Deep, pure yellow of medium height and size. Very heavy bloomer.....Each 25c
- Prince Lohengrin**—Delicate pink lavender, much pinker and better than Lohengrin.....Each 25c
- Princess Beatrice**—This is conceded to be the best of the light silvery lavenders. Flowers of perfect form and substance.....Each 25c
- Princess Victoria Louise**—See bargain list.
- Prosper Laugier**—See bargain list.
- Prospero**—Large blue-purple bicolor. Finest of habits, the tall strong stems always held well above the foliage.....Each 20c
- .Purissima**—Pure white of great size, fine form and heavy substance.....Each \$1.00
- Quaker Lady**—See bargain list.
- Queen Alexandra**—See bargain list.
- Queen Caterina**—See bargain list.
- .Queen of May**—See bargain list.
- Raffet**—See bargain list.
- Rameses**—Pink and apricot blend. One of the very finest blends the Sass Brothers have ever introduced. Plant vigorous, well branched and stands well up to 36 inches with several of the large flowers open at a time.....Each \$4.50

- Sherwin Wright**—See bargain list.
- Sindjkha**—See bargain list.
- Sir Michael**—Conceded to be one of the best deep blue bicolors. 44 inches.....Each \$2.00
- Snow White**—Pure snow white with green markings at the throat. Medium height.....Each 35c
- Soledad**—This is an early iris, but when the season is favorable is one of the most beautiful varieties in existence. Soft tone of yellow free from markings. Very profuse.Each 20c
- Souv De Loetitia Michaud**—Gigantic flowers of lobelia blue. Fragrant. 40 inches.....Each 50c
- Souv De Mme Gaudichau**—Dark velvety purple bicolor. This variety comes about as near being the perfect iris as any variety yet introduced. About 34 inches.....Each 25c
- Steepway**—Deep pink with a smooth satiny finish. An attractive, distinct touch of blue in the center of fall. Tall dependable bloomer...Each 20c
- Storm Cloud**—See bargain list.
- Sungod**—Very beautiful light yellow. F. striped light brown. A new iris of outstanding quality which is becoming very popular. Late....Each 35c

- Susan Bliss**—Rich rose pink. Stylish flowers of fine substance on 36 inch stems.....Each 25c
- Sweet Lavender**—Dainty rose lavender with beautiful ruffled flaring falls. 38 inches.....Each 20c
- Taj Mahal**—Large waxy white on strong 34 inch stems, always held well above the fine heavy foliage. A dependable white sure to give an abundance of bloom where this color is needed in the garden. Sure to please.....Each 25c
- Tenebrae**—Large flowers of velvety blackish purple. Another fine iris of the famous DOMINION strain. 36 inches.....Each 25c
- Titan**—This large blue bicolor is claimed to be the largest DOMINION seedling introduced to date. Very finest of substance.....Each 25c
- ‡**Tom Tit**—Medium sized flowers of deep purple. Especially recommended for bud vases. Fine for rock garden or by the side of pools.....Each 20c
- ‡**Trianon**—See bargain list.
- Trojana**—See bargain list.
- Tropic Seas**—The finest violet-purple bicolor produced by SHULL. Large flowers on 40 inch stems. Very colorful in clump.....Each 25c
- ‡**Troost**—Deep rose pink with heavy attractive veinings on the broad firm falls.....Each 20c
- Trostringer**—No variety has done more to boost the popularity of the iris than this one. The color is the most delicate pink imaginable. Such a description does not begin to suggest the beauty of this fine iris. Hardy in the most severe climate and an unusually profuse bloomer. Ea. 35c
- True Charm**—S. and F. white, with delicate margin of blue. Tall with large stately flowers..Ea. 25c
- True Delight**—White with both S. and F. distinctly bordered with old rose. 36 inches.....Each 25c
- Turco**—See bargain list.
- Valencia**—An attractive combination of buff and orange. Large ruffled standards. 20 inches. Ea. 25c
- Valery Mayet**—S. coppery-rose; F. deep bronzy red. Makes fine color display in mass.....Each 20c
- Venetia**—Tall large flowered, deep to medium toned blue. Well branched.....Each 25c
- Vesper Gold**—Tall, soft blend, deeper than Afterglow. This iris combines beautifully with the tall pink varieties.....Each 35c
- Vingolf**—S. creamy yellow; F. rich velvety violet with a clear edging of light yellow....Each 25c
- Virginia Moore**—Bright yellow with veining on the throat. A good late, free flowering yellow. very satisfactory for garden use.....Each 20c
- Wedgewood**—Large flowers of Wedgewood blue. One of the most valuable of all irises for making color schemes complete. 36 to 38 inches.Ea. 25c
- White Knight**—Late, pure white, almost free from markings. Very fragrant. 20 inches.....Each 20c
- ‡**Wild Rose**—The name aptly describes this iris. A delicate soft shade of wild rose.....Each 20c
- Wm. Mohr**—The ground color pale lilac, the whole flower beautifully veined manganese violet. The huge flowers stand three days in the hottest sun. This Pogocyclus hybrid is proving hardy as to cold in our climate, however the rhizomes grow small. Single separations do not establish well owing to our extreme hot summers. After

experimenting over a period of time, have decided to sell this variety in one year old clumps with not less than three rhizomes per clump.

Not sold singly. Per clump.....\$2.00

W. J. Fryer—See bargain list.

Wyomissing—See bargain list.

Yolande—Large velvety violet purple flowers on strong, well branched 36 inch stems..... 25c

Zua—See bargain list.

Zwanenburg—See bargain list.

MISCELLANEOUS IRIS

I. PUMILA—(Dwarf bearded) 3 of the same variety 25c
 Have a very fine assortment of Mr. H. P. Sass' hybrids. No hybridizer is doing more with the dwarf family than he, and only the very highest quality is represented in this collection.

Can supply the following named varieties:

Atroviolacea—(4 in.) purple.

Bride—(10 in) fine white.

Coerulea—(4 in) light blue.

Fairy—(10 in.) blue.

Orange Queen—(6 in.) yellow

These are very fine for the sunny rock garden giving touches of rich color just following the crocuses. Will make an assortment of ten varieties, all different, not labeled.

Ten varieties (all different) post-paid \$1.00

I. SIBERICA—Beardless 25 cents each.

Alba—Very tall white.

Emperor—Large deep violet.

Geo. Wallace—Deep blue.

Perry's Blue—Sky blue.

Blue Charm—(H. P. Sass). New. Not priced.

I. SPURIA—(Beardless) 25 cents each.

Mrs. Tait—Light blue.

Ochroleuca—Cream, gold center.

BEARDLESS HYBRID

Dorothy K. Williamson, 25 cents each.

Rich velvety, red-purple.

BEARDLESS SPECIES.

Cristata—(4 in.) Light blue. 25 cents each.

Dichotoma—(40 in.) Mauve lavender. 25 cents each.

This novelty surely lends variety. The tall spikes bear many flowers at a time, blooming during the hot part of the summer. Hot weather does not seem to affect it. Very fine as cut flowers.

Missouriensis—(15 in.) Lavender. 25 cents each.

Pseudacorus—(36 in.) Yellow water iris. 25 cents each. Will grow in good rich garden soil.

Tectorum—(18 in.) Light blue. 25 cents each. This is the popular iris grown on roofs in the Orient.

Beardless varieties should be planted in the early spring or late fall to obtain best results.

Also have several choice Japanese Iris. Anyone interested in this branch of the iris family will be sure to find something of interest during their blooming season. No Japanese Iris offered for sale.

ROCK PLANTS

SEDUMS. We have in the Sedums, a specie of plants which fill a long felt need. They retain most of their foliage during the winter months, and make one of the very first green spots when the spring days begin to warm the cold ground. Growth continues all summer in spite of the kind of weather or amount of care they receive, covering the bare spots in the rock garden, trailing over a rock ledge or nestling around the tall plants, everywhere in apparent, perfect contentment.

Plants are field grown, having been out-doors the entire winter. Have 18 varieties covering a wide range of habits as to general growth, from the very tiniest to the large red, flowered Spectabile.

Priced 10c per plant, 3 plants assorted 25c.

SEMPERVIVUMS—Hen and Chickens

From the main plant (or hen) often as many as 15 or more of the tiny rosettes (chicks) appear nestled under the protecting outer petals, making a most interesting and desirable addition to rock garden. Only hardy varieties having withstood the past winter outdoors is offered.

Priced as to size 10c to 25c per single plant.

CACTUS

One of the most interesting branches of the plant family is the cactus, the number of varieties mounting to a very high figure. There is no end of interest in watching the cactus bed bud and open into bloom. And such bright, gorgeous colors. From the size of a penny on to much larger sizes, many as large as tea cups, every blossom in itself a perfect specimen of beauty.

Have on display several hundred fresh, healthy cacti in assorted sizes, covering a wide range of varieties.

Priced, as to size, 10c up.

DWARF IRIS, SEDUMS, SEMPERVIVUMS and CACTUS are especially recommended for rock gardens.
